

# Midnight in Military Time

so everybody wants to know what is the proper way to pronounce or write midnight in military time. Some people say 24:00 and others say 00:00 so which of these is the proper term. In the 24-hour time rotation, the day starts at midnight, 00:00, and the last minute of the day begins at 23:59. Where convenient, the notation 24:00 may also be used to refer to midnight at the end of a given date – that is, 24:00 of the current day is the same point in time as 00:00 of the following day. Here is a printable military time chart showing **midnight in military time**
